

---

Today's kids need more than academics in order to succeed. They need skills like decision-making, learning how to learn, communicating and getting along with others.

You can help kids develop these skills as a *4-H Cloverbud* volunteer. Designed for kids ages 5–7, the *4-H Cloverbud* program uses hands-on learning activities in a group setting to promote personal development, healthy lifestyles, and a sense of citizenship.

We need caring volunteers, just like you, to help with *4-H Cloverbud* groups. We'll provide all the materials and training that you need to work with a small group of *4-H Cloverbud* members. And the experience you get as a volunteer is a great personal asset, especially in career placement.

Help us give kids the skills they need for today and tomorrow. After all, children are the future. Call today to get involved.
